

SAFETY AND INSTRUCTION MANUAL (Version V0.2-EN)

***BRO*OPTIC.CLIP** ADAPTER

EN

⚠ WARNING

Before using, read this manual carefully and entirely. Pay particular attention to the warning notices.

NOTICE

Always keep these operating instructions together with the manual of your BUBIX^{BRO} gun. The currently valid version of this Instruction Manual is available for download as a pdf bubix-arms.com.

1 Foreword

You have chosen another innovative and user-friendly product from the BUBIX[®] company by purchasing the **BRO**OPTIC.CLIP adapter. With it, you can expand your BUBIX^{BRO} in the Optic-Ready version by a red dot sight.

2 The approach

The goal in developing this optics carrier was to provide a user-friendly solution that still offers the option of comfortable concealed carry of the weapon (EDC gun) when using red dot sights.

The present version of the ***BRO**OPTIC.CLIP* adapter of the company **BUBIX**[®] GmbH fulfills these requirements entirely by simple assembly without complex assembly work, as well as fast, uncomplicated, and **tool-free** mounting or dismounting.

3 About this manual

This instruction manual allows the correct assembly of all necessary components and the proper use of the ***BRO**OPTIC.CLIP* adapter in connection with your **BUBIX**^{BRO} gun.

4 Advantages of a red dot sight

Adding red dot sights to your **BUBIX**^{BRO} gives you even more accurate shooting at any distance. Hunters, bodyguards, and sports shooters especially appreciate this.

5 General safety instructions and warnings

For safe and efficient handling of the gun, please refer to the instructions for using your **BUBIX**^{BRO} gun before starting initial assembly work and using the ***BRO**OPTIC.CLIP* adapter. (Download area bubix-arms.com).

NOTICE The ***BRO**OPTIC.CLIP* adapter may only be used in conjunction with a **BUBIX**^{BRO} gun (Optic-Ready version)! If you do not have a corresponding model, we refer you to the upgrade of your **BUBIX**^{BRO} with a conversion kit Optic-Ready.

6 Liability Disclaimer

The company **BUBIX**[®] GmbH excludes any liability for damages (personal injury and property damage) for the attachments of other companies mounted on the ***BRO**OPTIC.CLIP* adapter, as well as damages resulting from improper handling or use contrary to these instructions. The same applies to damage resulting from improper installation or failure to observe this information.

7 BROOPTIC.CLIP Adapter

7.1 Product description

7.1.1 Overview of the operating-, safety- and functional elements

- Ⓐ Red Dot Optic

- Ⓒ1 Lateral Holding Slots
- Ⓒ2 Recess

EN

7.2 Scope of delivery

- ▶ BROOPTIC.CLIP Adapter
- ▶ Quick guide

NOTICE

The scope of delivery does not include red dot sights.

7.3 Compatible red dot sights

The X1 version is compatible with the following red dot sights, among others:

- ▶ NOBLEX sight II (IPSC / plus)
- ▶ Meopta (MeoRed 30 / Meosight III)
- ▶ Vortex (Venom / Viper)
- ▶ Burris FastFire (4 / 3 / 2)

8 Operation

8.1 Mounting a compatible red dot sight on the BROOPTIC.CLIP adapter

For setup and mounting of a red dot sight on the BROOPTIC.CLIP adapter, follow the associated instructions for use by the optics manufacturer.

NOTICE Use only the screws supplied by the red dot sight manufacturer for mounting.

CAUTION To avoid damage to your BUBIX^{BRO}, ensure that the screws do not protrude on the bottom of the BROOPTIC.CLIP adapter after mounting.

8.2 Clip on the optics unit on the slide

1. The optics unit is placed on the carrier via the retaining slots on the side **5**.
2. Press the optics unit against the spring pressure onto the slide and push it back until the Locking Bar **Ⓞ** engages **6**.
3. The optics unit is correctly positioned if an engagement noise can be heard when it is pushed back. **7**.

⚠ CAUTION Before using your BUBIX^{BRO}, check if the optics unit is firmly seated on the slide.

EN

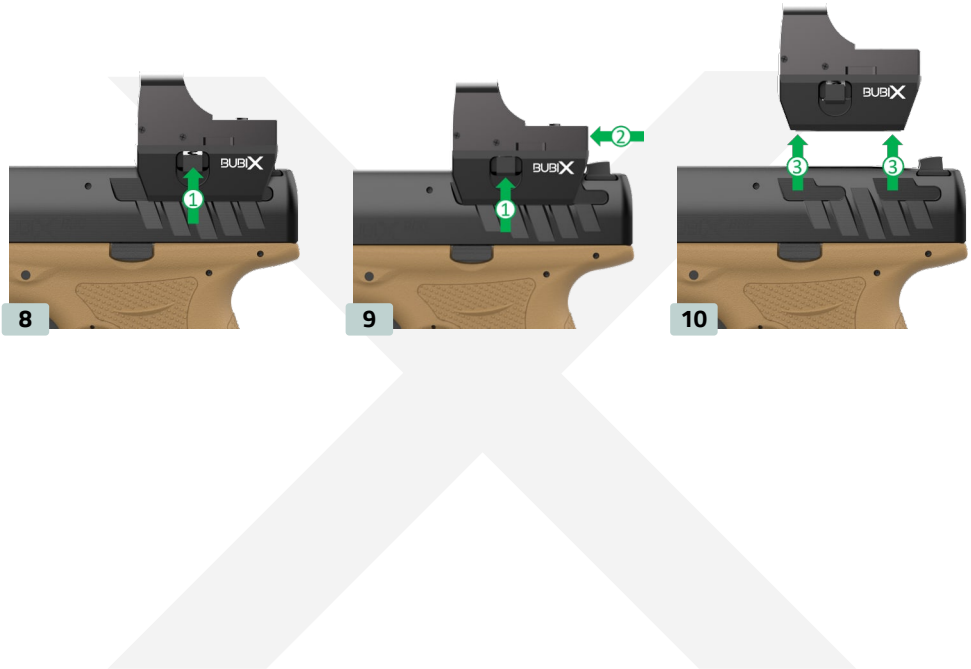

⚠ WARNING

- ▶ If the locking bar of the optics unit is not fully engaged **7** (missing distance), you might endanger the health and life of yourself and others while using the gun.
- ▶ Remove the optics unit ⇒ **8.3 Clip off the optics unit from the slide** and check the Recess **Ⓞ** on the BUBIX^{BRO} Optic-Ready Slide-Unit **Ⓞ** for damage or contamination.
- ▶ Check the screw length ⇒ **8 Operation**.
- ▶ If necessary, contact an authorized armorer.

8.3 Clip off the optics unit from the slide

1. Pull the locking bar upwards on both sides at the same time **8** . Hold it firmly in this position, and then press the optics unit sensitively from behind, preferably with the other free hand.
2. Move the optics unit forward until you feel the appearance of resistance **9** .
3. You can now pull the optics unit upwards from the slide **10** .
